January 19th - 20th
Matinee Saturday at 2 p.m.
2:30 and 10:00—Tax Included
2 Shows Sat. Night, 7:30, 9:30

William F. Thompson, father of "Fing" Thompson, goalie with the Boston Bruins and former Bellevue hockey player, died at Calgary yesterday morning, at the age of sixty-six. He was born at Elmdale, Nova Scotia. He is survived by his wife and two sons, Paul and Cecil.

"BOWERY" PROMISES ROBUST DRAMA AND HUMOR

Beer, bustles, bicycles, balloon sleeves—"The Bowery," uproarious fun, robust drama, gay nights and happy days in the wicked eighties and naughty nineties are features of "The Bowery," 20th Century's first picture, starring Wallace Beery, George Raft and Jackie Cooper, with Fay Wray and Pert Kelton, and showing Friday and Saturday, January 19th and 20th, at Cole's theatre, Bellevue.

All the atmosphere of "the liveliest mile on the face of the globe," it is said, has been preserved for "The Bowery" by director Raoul Walsh. The action of the picture also includes the Park Row approach to Brooklyn Bridge, the old Bridge itself as it was when Steve Brodie jumped from its center span, Brighton Beach and a score of other shots and scenes from "The Bowery" itself as it was in the days of yore.

John L. Sullivan, "Chuck" Connors, Steve Brodie and Carrie Nation, four real-life characters, appear in "The Bowery," all of them doing their stuff in approved Bowery style.

Mingling with the "big shots" of the nineties are the other denizens of The Bowery—sporting men and Peacock Ally beauties, Orientals from the Pell-Mott-Doyr Chinatown; tin-horn gamblers, wire-tappers, con-game workers, sailors, Bowery boys and girls, bar-flies, honky tonk entertainers; and the picturesque human fotsam and jetsam of the Bowery the song writers romanticized in by-gone decades.

"The Bowery" is a United Artists release, adapted by Howard Estabrook and James Gleason from the novel, "Chuck Connors," by Michael Simmons and B. D. Solomon.

John Czach, aged 19, of Vegreville, has been found guilty of manslaughter, as a result of the death of Alfred William Coombes, 17, who was struck by a truck driven by Czach on an Edmonton street. He will be sentenced today.

RELIEF SOCIETY SPONSORED BY THE LOCAL I.O.D.E.

At a meeting held on Friday evening last, the members of Crow's Nest Chapter of the I.O.D.E. organized a relief society for the purpose of assisting needy families with clothing, etc. The following officers were elected: Mrs. A. E. Archer, president; Mrs. C. Fraser, vice-president; Mrs. J. Patterson, secretary-treasurer; Mrs. J. E. Upton and Mrs. M. Neville, investigating committee. Through the kindness of the West Canadian Colliers Ltd., meeting will be held every Wednesday, from 2 to 5 p.m., in the Beatrice apartments.

Volunteers to sew and make over old clothing will be welcome. Anyone having discarded clothing, kindly notify Mrs. Archer, and same will be called for.

CATTLE DISEASE PREVALENT

In some districts in the province there is prevalence of the disease in cattle known as hemorrhagic septicemia, or stock yard fever, according to the provincial veterinarian, who warns owners of cattle to be on the look-out for symptoms of pneumonia or digestive disorders, and to take necessary steps at once to deal with it.

DO YOU KNOW THAT YEARS AGO

Miners coming home from work were given a free schooner of beer? That one policeman patrolled all The Pass.

That the Old Man River fell down the International mine.

That there is a man living six miles west of town who came here in 1874.

That Whiskey Kate was the most popular lady in the village.

That Joe McKay wore a derby hat.

That McKen Hunter had a horse named Frank, a rubber-tired boy and a school maul friend.

That Barney Stitt and Bill Burrows tended bar.

That Charlie Goody wore a pig tail.

That the post office was in the K. P. hall.

That Harry Antel charged \$2.00 for meeting trains with a Ford.

That German John made whiskey.

That a Main Street corner lot was won in a Black Jack game.

That the Boss called men by numbers.

That Billy Evans sold Seagrass \$3 \$2.00 imperial quart 'legally'.

That Bill Burrows mixed green-eyed cocktails, "four bits a shot."

That miners smoked at work and losses carried stable lahters in the mine.

That every bar room had a free pool table and a snake room.

That gold was found on Star Creek.

That Frank Barrington was once a valet to Prince Erik of Denmark.

—Coleman Journal.

Britain will construct eight destroyers at a cost of \$11,250,000.

The curling bonspiel has concluded, and the silverware awards will be distributed to all winners in the course of a few days. Only sixteen rinks entered the competitions, which was somewhat disappointing. Fernie came down, but Cranbrook was not represented. Pincher Creek had one rink here, under R. O. Allison, which proved to be one of the most successful. The annual banquet was held at the Greenhill Grill last night, when some hundred or more sat to a very sumptuous feast, which was followed by a programme of music, speeches, etc. Messrs. McMurdo and Tayson, of Pincher Creek, were highlanders among the entertainers. A list of winners in the various competitions will appear in our next issue.

UNITED CHURCH TO HOLD ANNUAL MEETING ON SUNDAY

Members, adherents and friends of Central United church are cordially invited to attend the service of public worship at 7:30 p.m. on Sunday next, January 21st. This will be a brief inspirational service of 45 minutes duration, to be immediately followed by the annual congregational meeting.

Reports of church activities will be given by the various groups and the minister will present an interesting report dealing with various phases of his ministry in the past year.

The minister invites you to come along and make this a time of real congregational fellowship.

BARBED PLANT SEEDS BRING TROUT DEATH

Trout are greedy rascals and it may be no use to warn them, but they'd better not go snapping at any stray seeds of the wild sunflower which they may see floating on the water.

Some fingerlings in a British Columbia stream found this out for themselves last summer—but they found it out too late. Nature, it seems, attaches small barbs or prongs to wild sunflower seeds and when the young trout in this stream jumped eagerly at seeds which had dropped into the water from plants along the bank the barbs became fixed in the flesh of the fish and brought about death. Apparently the barbs contain some substance having toxic effect upon fish, or at least upon young trout, although the wild sunflower is not poisonous to humans.

It's a surprising little story, but well authenticated. Its locale was a small stream in which a British Columbia man was carrying on trout rearing operations and some of the dead fingerlings with barbs still in their bodies, have been sent to the Dominion Department of Fisheries, which is having a study made of the case. It is well known, of course, that various birds and some animals prey upon fish, and that some fish are cannibals themselves; but it is something new to find that small, inanimate plant barbs are also among the enemies. So far as is known the present case is the first incident of the kind to come to anyone's attention, but since the wild sunflower is quite common it may be that its barbs have often taken toll from the trout streams.

There are a number of different species of wild sunflowers in Canada, both east and west, and at the moment it is not known to the Department of Fisheries what particular species figures in the British Columbia incident, nor, of course, is it known whether the seeds of other species are also injurious to trout. The identity of the troublemaker will be readily ascertained, and future investigations will no doubt show whether any of its relatives are also fish killers. They may show, too, whether it is only young trout which are affected when the barbs strike the flesh, or whether older fish also suffer. The fact that there is no record of grown trout ever having been killed by these barbed sunflower seeds may mean that mature fish are able to throw off effects which would be too much for the little fellows, or it may be that the grow-ups disdain to bother with a floating bit of seed which to inexperienced youthful eyes looks worth grabbing.

Mr. and Mrs. W. R. Atkinson and child arrived at Hillcrest from the Peace River district just prior to Christmas to spend the winter months with Bill's parents, Mr. and Mrs. J. C. Atkinson. Both granddad and grandma are quite cheery these days, since taking charge of the grandchild till the visit terminates.

WALTER WINCHELL'S SMASHING MUSICAL HIT!

"Broadway thru a Keyhole"

Communist organizations will no longer be allowed the use of Massey Hall, large Toronto concert hall, William Robbins, member of the board of directors, stated. The decision followed a meeting of Communists in the hall when 2,000 members of the audience refused to stand during the playing of the National Anthem.

The officers of Mispah Temple Pythian Sisters lodge were installed at the regular meeting last week as follows: Sister C. Hollinghead, past chief; Sister Ethel Sullivan, M.E.C.; Sister Mary Kyle, E.S.; Sister M. Turner, E.J.; Sister L. Makin, manager; Sister J. Makin, M. of R. & C.; Sister M. Clark, M. of F.; Sister C. Kyle, protector; Sister B. Small, guard; Sister E. Haggerty, D.C.; Sister M. Atkinson, press correspond-

ent; Sisters Mansell and Atkinson, committee, sick-visiting. Sister L. Makin was installing officer, assisted by Sister Haggerty as deputy grand senior and Sister Hollinghead as deputy grand manager. The usual banquet followed the installation, leading from the highway into Hillcrest, sisters from neighboring towns could not attend.

Final figures on the sugar beet crop of southern Alberta show the total yield for 1953 to have been 137,450 tons from 14,640 acres, or a little less than ten tons to the acre. The total paid to farmers for the beets was about \$850,000. The amount of sugar manufactured at the Raymond factory in the season just closed was about 45,000 pounds, in addition to which there were 32,000 tons of beet pulp.

U.S. PLANES MAKE LONGEST MASS FLIGHT RECORDED

Honolulu.—The longest non-stop mass flight over water in aviation history was completed with clock-like precision here on Thursday as six United States navy planes, carrying 30 men on a swift 2,400-mile "routine" transfer from California to Hawaii, alighted at Pearl Harbour in 15-3 order.

The over-all elapsed time of the planes in the air was 26 hours and 21 minutes, but the flying time in formation from the Golden Gate across the perilous stretch of the Pacific to Pearl Harbour was 24 hours and 45 minutes, official time.

They had their troubles with fog, deadweight and darkness. But they came through with certainty. It was not their first swift victory over distance.

A few months ago they flew in formation from Norfolk, Va., to Coco Solo, Panama, and thence to San Diego, Calif.

Some 600 miles off the Golden Gate the squadron dove into its first fog bank and the 10-P-5, commanded by Lieut. St. John Perry, of Greenville, S.C., became temporarily lost but rejoined the formation upon emerging from the hanging clouds. Four or five hundred miles farther out, Perry got lost again in the same manner, but again came back.

Would Fix Interest Rate

Manitoba Municipalities Recommend Plan Based On Wheat Price

Winnipeg, Man.—The executive of the Union of Manitoba Municipalities placed before the Manitoba government proposals for legislation to be introduced at the coming session of the Manitoba House. Among other things, the 29 resolutions called for an important change in the Debt Adjustment Act, which cited a new principle for dealing with interest on farm mortgages.

Adjustment of interest was proposed on the basis of the net track price per bushel of No. 1 Northern wheat at the close of the Winnipeg market September 15. The government was urged to amend the Debt Adjustment Act so that when wheat under such a classification was less than 50 cents, then interest for that year should be written off.

It was proposed that if the price be over 50 cents, but under 65 cents per bushel, interest should not be more than three per cent. If the price were between 65 and 75 cents the rate would be not more than four per cent, and if the price were 75 cents or over the rate should not be more than six per cent.

Outlook More Hopeful

Feeling In Europe Regarding Disarmament Talks Encouraging

London, Eng.—The report Sir John Simon brought back from his conversations with Premier Mussolini at Rome has created a more hopeful outlook toward disarmament negotiations.

It was believed the report of the secretary for foreign affairs confirmed the view that diplomatic negotiations in the various European capitals, especially Paris and Berlin, were taking an encouraging turn, and that it was desirable that they be continued.

The Times editorially said "There can be no doubt that to break into Franco-German negotiations, which are making some progress, would be far likelier than help them."

Wins For Second Time

Edmonton, Alberta.—Championship for the best bird in the provincial poultry show here was awarded to a house turkey shown by Mrs. Frank Houscher, of the city. The bird was best turkey at the recent Royal Winter Fair in Toronto. Reserve championship honors on the best bird in the show here went to Jack Brown, of Chilliwack, B.C., on his champion S.C. Rhode Island Red.

Prince To Visit South Africa

London, Eng.—Prince George has accepted an invitation to climb Table Mountain at Capetown with General Jan Smuts, he announced at a dinner in his honor. In connection with the forthcoming visit to South Africa, his royal highness said he anticipated an enjoyable instructive tour, with good golf in the invigorating South African air.

W. N. U. 2029

Lifts Restrictions

United States Government Moves To Enlarge Supply Of Liquor

Washington, D.C.—Lifting the restrictions on importations of American type whiskey for 30 days, the United States government moved to enlarge the supply of liquor, lower prices and rout the bootlegger.

What effect the order might have on the Canadian liquor business with the United States was not readily ascertainable. As American type whiskeys have been flowing from Canadian distilleries into the republic outside of any quota restriction, the order was taken to refer to countries other than the Dominion with such right types of liquor.

Bread Control Law

Legislation Governing Selling Of Bread In Alberta To Be Introduced

Edmonton, Alberta.—Legislation to control the production and selling of bread in Alberta is likely to be introduced at the coming session of the legislature. Premier Brownlee and members of his government were asked by a delegation of master bakers for an act covering production, and price control will probably be added by the government on its own initiative.

That this province should have a Bread Act similar to those in Saskatchewan, British Columbia, and Ontario was the request put forward by the delegation.

Gold Seekers Stranded

Expedition Meets With River Accident In British Guiana

New York.—Associates of William La Varre, head of an expedition exploring the headwaters of the Essequibo River, deep in the jungles of British Guiana, were informed by cablegram of a river accident that cost the explorers their 54-foot canoe and all their supplies.

The accident occurred in the Rupununi River, leaving the expedition isolated from civilization. La Varre indicated the expedition had discovered gold and diamond fields in a region that may prove to be one of the world's greatest sources of such treasure.

Russian Trade Agreement

Soviets Will Purchase Large Quantities Of French Products

Paris, France.—Soviet Russia agreed to buy \$17,000,000 worth of French products within the next year in a commercial agreement which was prepared for signature. In exchange France is to grant Russia credit and a minimum tariff on Russian products not competing with the French. In case competition threatens, the French will be free to impose quotas on such products.

France's exports to Russia are increased five-fold by the agreement as she exported less than \$3,300,000 worth of products to Russia in 1933.

Fair Pay For Teachers

Alberta Government To Take Action In The Matter

Edmonton, Alberta.—Action is proposed by the provincial government to ensure fair and equitable settlement of disputes between trustees boards and teachers. Premier Brownlee told a delegation from the Alberta section of the Canadian Labor Party.

The Premier stated that the Minister of Education and himself were working on a draft of legislation dealing with the formation of a board of reference and it was hoped that this would be acceptable to all sides.

New Brunswick Sells Bonds

St. John, N.B.—The province of New Brunswick has sold \$789,000 in 20-year 5 per cent. bonds, at 99.01, to a syndicate composed of the Bank of Montreal, Royal Bank of Canada, A. E. Ames & Co., Ltd., Wood, Gundy & Co., Ltd., Eastern Securities, Ltd., and the Dominion Securities Corp., Ltd., according to an announcement made by Premier L. P. D. Tully. The issue was made for the purpose of refunding debentures issued in 1924.

Find Headquarters Intact

Wellington, New Zealand.—Dr. Lincoln Ellsworth, leader of a proposed trans-Antarctic flight expedition, has arrived at the Bay of Wailes, Antarctica, to find the Richard E. Byrd expedition headquarters established in 1930 intact. The report of his find was received here in a wireless message to the "Bear," supply ship of the present Byrd expedition to the Antarctic.

Attains Ambition

Girl Who Worked In Harvest Fields Now Concert Artist

Toronto, Ont.—From dishwashing in a restaurant to a highly paid concert artist is the story of Anka Meyersstrom's success. Anka became a full-fledged Canadian when she was granted naturalization papers and it was then revealed the hardworking young woman fought in western Canada to obtain her ambition.

In the west the young Swedish maid found herself in need of money. She donned men's clothing and worked in the harvest fields. Finally she reached Winnipeg in a box car and started her dishwashing career for a living.

She worked for a while on reaching Toronto in a hat and dress store, but she lost the job. Then on to Montreal to return to dishwashing.

One day at a party her voice attracted a concert manager. Now Anka is singing for a living.

Next Eclipse Of Sun

Partial Shadow Will Cover Half Of Pacific In February

Northfield, Minn.—An eclipse of the sun "which ends the day before it begins" will cross the Pacific next month and American astronomers will be able to appeal to steamships to change courses and head into this temporary night in the interest of science.

The partial shadow will cover nearly half the ocean. Just before sunset it will shade the west coast of Canada and the United States.

ST. LAWRENCE PROJECT IS UP FOR DISCUSSION

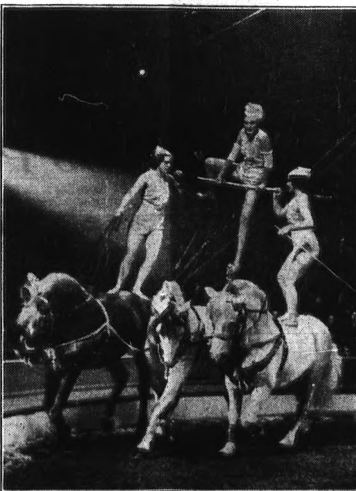

Ottawa, Ont.—If the United States congress followed President Roosevelt's suggestion and ratified the St. Lawrence waterways scheme, the treaty would come before the Canadian parliament this session for similar action. The understanding has been that Canadian ratification would be withheld until Washington had dealt with the treaty.

The United States would bear most of the expenses of the international section, while Canada would bear the expenditures necessary in the Beauharnois and Lacine sections. The international section would develop 2,000,000 horse power of electric energy, half going to each country. The Canadian half would be handed over to the province of Ontario which would bear part of the cost of the hydro development.

Toronto, Ont.—Opposition to the proposed St. Lawrence waterway appeared at the Great Lakes division section meeting of the National Association of Marine Engineers of Canada in convention here.

The proposed waterway was opposed "in its entirety" by the Great Lakes division which termed the belief Toronto some day would become an ocean port through construction of the waterway a "political dream."

THRILLS AT THE CHRISTMAS CIRCUS AT THE OLYMPIA

Every Christmas thousands of Londoners flock to the Olympia to see the famous annual circus, and this year the circus again proved the most popular of the Yuletide entertainments in the British Capital. Our picture, taken during the performance, shows the Medrano Sisters, in their wonderful equestrian act. This is their first appearance in England.

CELEBRATES BIRTHDAY

Sir William Mulock, K.C.M.G., Chief Justice of Ontario, who celebrates his 90th birthday on January 10th.

Safety Of Missionaries

Reassurance Regarding Safety Of Americans In China Is Received

Hong Kong, China.—Some reassurance regarding the safety of six American missionaries trapped in the Fukien province fighting zone was contained in a report that Nationalist forces will not attack Foochow, the provincial capital and centre of an anti-Nationalist revolt.

The missionaries were isolated when the Nanking regulars and rebel forces engaged in fierce fighting near Kuitien, about 50 miles from Foochow, and disrupted communication facilities made contact with them impossible during the last 11 days.

After a relentless offensive that reportedly brought them to within 25 miles of Foochow, the Nationalists were said to have abandoned the idea of bombing Foochow, hoping that the 19th route army in the capital would capitulate to avoid great property damage.

No Navy Building

Australia Has No Intention Of Embarking On Construction Program

London, Eng.—Australia, like Canada, has no intention of embarking on a program of new naval construction.

Rounding out a review of Empire naval policy, authoritative Australian sources in London, in response to enquiry by the Canadian Press, stated Australia had no intention of new naval building. They pointed out that at present she has only one sloop building, with no orders and no appropriations for any other vessels.

Few Industry Disputes

Regina, Sask.—Only eight industrial disputes occurred in Saskatchewan in 1932, states a report of the Department of Railways, Labor and Industries. They employed 365 employees and 27 employees. Total time lost was 4,191 man-work days. Trades involved were coal miners, printers, plumbers, and motion picture projectionists.

Continue Drive For Highway

Action On Road From The Pas Is Requested

The Pas, Man.—Continuing their drive for action on The Pas Highway connecting with the cities of the plains, civic organizations of The Pas and Cranberry Portage united to put their case before Premier John Bracken, of Manitoba.

The Pas Board of Trade wired Premier Bracken asking if the proposed road had been placed on the provincial programs set before the federal government for consideration in anticipated public works schemes to go into effect next spring.

Premier Bracken answered as follows:

"The Dominion Government has not requested us to submit a program of provincial works, nevertheless a program has been prepared of works suggested by various communities which list includes The Pas Highway among provincial works."

The members decided the premier's wire was ambiguous and drafted another asking whether or not The Pas Highway would be on the list sent to Ottawa. At the same time Cranberry Portage representatives sent similar wires.

Chicago Milk Strike

Government Move Terminates Struggle Of Farmers

Chicago.—The Chicago milk strike was ended as the United States government moved toward stern intervention asking interference with interstate shipments and with the United States mail.

Settlement of the strike was in the form of a truce signed by representatives of the farmers, the big Chicago dairies, and even the independent dairies, which in the past have refused to guarantee any minimum price to producers.

Under the terms of the truce, a mediation board of three members, one from the distributors, one from the farmers, and a third to be selected by the first two, will be named to agree on a fair price to be paid farmers.

When the embargo ended there was not a drop of milk for sale in Chicago stores, even families with small children could obtain none, and deliveries to hospitals and institutions were threatened.

DEBT PROBLEM STANDING IN WAY OF RECOVERY

Ottawa, Ont.—Readjustment of international debt was an essential prelude to world economic stability, Hon. H. H. Stevens, Minister of Trade and Commerce, told the University Club here.

"But," the minister continued, "equally important is that the weight of internal debts be lightened by the lowering of interest rates and by extending the term of payment. In some cases, actual forgiving of debt is necessary."

Canada's chief concern was how to secure for the farmer producer a fair return for his efforts. "We know he cannot pay his debt at present prices."

Mr. Stevens favored the remonetization of silver. "I hold the view that an international exchange based on currency with a metallic backing is the most secure; that is, a currency based on silver and gold. Such has been known and understood by all peoples of the world from time immemorial."

Speaking of seasons from the depression, one thing was clear and that was that problems which one, two, or three years ago were shrouded in mystery were today clearly defined, if not yet actually solved, the minister said. "Where formerly there was only obscurity and fear, we now know what it is we have to face. What had been deemed 'eternal verities' economics have crumbled and fallen."

In the realm of finance, one after another the great nations of the world had abandoned the gold standard, he said.

What was to be done? One economist suggested a managed currency, another a commodity dollar, a third an international exchange based on the quantity of primary products, while others urged remonetization of silver. One man's opinion was as good as another. He held the view for remonetization of silver.

"We have also learned that the paradox of poverty amid plenty is not only possible, but terribly real," said Mr. Stevens.

FRENCH PREMIER FIGHTS CHARGES OF CORRUPTION

Paris, France.—Defending his regime from a barrage of corruption charges in the Chamber of Deputies, Premier Camille Chautemps revealed what he said was a plot against his government in connection with the \$40,000,000 Rayons Bank scandal.

While mobs rioted outside the Chamber, the premier revealed a coup d'etat which he said had been prepared three days ago to place the government in the hands of a directory of a few men "reputed for their energy."

In a fighting mood M. Chautemps told the Chamber that the "Democratic regime was endangered when a resignation of the cabinet was envisaged following the death of Serge 'Handsome Alex' Stavisky and the collapse of his huge underground financial machine."

M. Chautemps said tracts were prepared demanding that France confide its destiny to a directory of a few men reputed for their energy, adding, however, that these men had not been consulted about the matter. Hundreds of Royalist youths, shouting "down with thieves and assassins," clashed with a police "autobus army" in the nearby Place de la Concorde as popular indignation rose again to a high pitch.

Scores of demonstrators were held for questioning. A number were bruised by police clubs and the Royalists' freely-swung canes.

Several shots were fired into the air as determined Royalists, mostly students, fought stubbornly. They uprooted trees and iron tree guards along the boulevard and threw cash chairs at police. Traffic was paralyzed.

Canada And World Peace

Dominion In Favorable Position To Assist The Cause

Ottawa, Ont.—Six reasons why Canada has a special opportunity to contribute to the building of a peace world are listed in the discussion outline of the League of Nations Society's national peace study project. They are:

Canada is the only North American British country in the League of Nations; Canada is both an Atlantic and Pacific country.

Canada is both bilingual and bi-racial and her treatment of minority problems qualifies her to be of service to the rest of the world;

Canada is associated with six other countries in the British Commonwealth and in a position to influence them;

Canada lacks special interest in European questions and is for this reason sometimes qualified to act as conciliator;

Canada possesses great resources in nickel, copper, wheat, etc., which give her power to assist both in preserving world peace and in maintaining war.

The outline which has been prepared by a committee of experts in education proposes discussions for 10 meetings.

Dance Tunes Burred

Montreal, Que.—Eight of the latest dance tunes will not be heard over the a.i.r. at least from station CRRM in Montreal, Mr. Justice Frank Curran having granted an interim injunction to the Canadian Performing Rights Society against the Canadian Radio Broadcasting Commission, operators of the station.

Feed Grain Shortage

Barnia, Ont.—Shortage of feed grain has become so acute in Lambton county, Ontario, that farmers fear they will have to draw from their seed grain reserves. Feed grain crops were poor last year and with most of the winter feeding still to come it is certain feed will have to be imported.

Wheat For Russia

Calgary, Alberta.—Ten thousand bushels of Garnet wheat, raised in the Olds district, have been shipped to Russia, apparently for seed purposes, according to an announcement by the Alberta wheat pool. This was part of a total shipment of 16,000 bushels, which will be loaded out of New York during the present month.

Allowed Entry

Washington.—Emma Goldman, deported to Russia in 1919 as an anarchist and who was recently in Toronto, was given permission by the Labor Department to enter the United States for not longer than 90 days.

WORLD HAPPENINGS
BRIEFLY TOLD

The Turkish cabinet has definitely approved the new five-year plan to industrialize formerly agricultural Turkey.

The discovery of two new small planets between Mars and Jupiter was announced by the Algiers Observatory.

Dr. Lachlan Gilchrist, professor of physics at the University of Toronto, was elected president of the Royal Astronomical Society of Canada at the society's annual meeting.

Two carloads of elk have been shipped from Vancouver, Alberta, to Burwash, Ont. This follows a similar shipment nine months ago to the Ontario Department of Game and Fisheries.

Efforts will be made by the agricultural committee of the Ontario legislature to bring about an inquiry by the Dominion and provincial governments into the operation of stockyards in Canada.

A new world's land plane speed record for a 1,000-kilometre (approximately 622 miles) course was set by the French pilot, M. Maasotte, who flew it in two hours, 47 minutes, 31 seconds.

Canada was officially invited to participate in the next Olympic games at Berlin. The invitation was received by James G. Merrick, of Toronto, member of the International Olympic Committee, for presentation to the Canadian Olympic Committee.

The University of Montreal which has been in financial difficulties for several years, is the recipient of a gift of \$100,000 from P.-Y. Rouger, Parisian manufacturer. The sum is to be devoted chiefly to the medical laboratories of the university.

The winter of 1933-34 is considered by aviation companies to be the worst they have had since planes started operating in the northland, according to Pilot Walter Gilbert, Canadian Airways. Through many causes, planes had to stay idle when there was plenty of work for them to do.

The Wheat Pact

France Reported To Be Doing Her Part To Live Up To Agreement

France is doing her part to live up to the credit and letter of the wheat agreement, according to information reaching Hon. M. A. MacPherson, who represented the prairie provinces at the world wheat conference in London, last summer.

Samples of the literature broadcast over France have reached Mr. MacPherson. They include extremely large posters which urge the greater use of wheat and the limiting of the areas sown to wheat and particularly stress the importance of feeding wheat to livestock and poultry. Farmers are advised to mix one quarter wheat with each feed for a horse.

Prince Of Wales Sells Land

Proceeds To Go Toward Fund For Slum Clearance

Sale of 14 acres in Kensington, southwest London, belonging to the Prince of Wales, Duke of Cornwall estates was announced in London, the proceeds to be devoted to slum clearance. The area borders the famous Oval, classic cricket-ground, which however is unaffected.

The "Duchy" has a policy of never selling and the gesture came from the Prince of Wales himself, without which the Kensington clearance plans would have been materially hindered.

Demand For Jersey Cows

Phenomenal growth in herds and in production of Jersey cattle and milk in Alberta during the past year, was reported to the annual meeting of the Southern Alberta Jersey Cattle Club by W. T. Hunter, Vernon, western field representative of the Canadian Jersey Cattle Club. He referred to a market increase in demand for Jersey milk not only in western Canada but throughout the Dominion.

Important Medical Discovery

Miss Pearl L. Moorman, 34, a native of the Ozark country, was acclaimed by the medical world for her major part in developing palmar anesthesia, a method of quickly reviving a person from an unconscious state caused by an overdose of an anesthetic, drowning, suffocation or acute alcoholism.

The man doesn't live who feels at ease in a room where two women are whispering.

W. N. U. 2029

Highway On Pacific Coast

Starting At Fairbanks Would End At Buenos Aires

Largest single highway project ever undertaken, the 12,000-mile international-Pacific Highway, is projected to begin at Fairbanks, Alaska, follow down the Pacific Coast to Valparaiso, and terminate at Buenos Aires.

Some sections already are completed. Others are passable. In Central America, most of the route has been surveyed.

From Mexico southward the route would be the same as the long-disputed Inter-American Highway. President Roosevelt has offered to finance the survey from Panama to Santiago, Chile, if the governments concerned agree, at a cost of probably \$100,000.

The tremendous undertaking of a Pacific road was conceived four years ago in Southern California. Since then, such men as Harry Chandler, powerful western publisher, and Pyke Johnson of the National Automobile Chamber of Commerce have become identified with the plan. The Automobile club of Southern California has successfully scouted the route as far south as El Salvador, having sent two motor caravans from Los Angeles.

Sponsors of the road do not urge an overnight spurge of primary highway construction from here to Cape Horn. But they have obtained pledges that the participating nations will lay out their road-building programs hereafter with a view to completing segments of the route as soon as possible.

Approximately 25 per cent. of the International Pacific Highway is an accomplished fact. The route from Hazelton, British Columbia, down the coast to San Diego and thence eastward to Nogales on the Mexican border, is a continuous stretch of 3,000 miles of primary highway.

Recipes For This Week

(By Betty Barclay)

TURKISH CROQUETTES

1 large yellow turnip.
2 potatoes.
2 egg yolks.
1 teaspoon sugar.
Salt and pepper.
Crumbs and egg.
Wash, peel and quarter the turnip. Cook until tender in boiling salted water to which has been added one teaspoon sugar. Press through a sieve. Peel and cook the potatoes separately. Mash until smooth. Combine three quarters of a cup of the cooked turnip with one-half cup of the mashed potato. Add two slightly beaten egg yolks. Cool. Form into small croquettes. Dip in crumbs again. Fry in deep fat. Drain on brown paper.

YEAR-ROUND SALAD

1 cup lemon or lime-flavored gelatin.
1 pint boiling water.
2 tablespoons vinegar.
1/2 teaspoon salt.
1 cup celery, finely cut.
1 pimiento, finely cut.
1 tablespoon green pepper, finely chopped.
1/2 cup cabbage, finely shredded.
Dissolve gelatin in boiling water. Add vinegar and salt. Chill. When slightly thickened, fold in remaining ingredients. Turn into individual molds. Chill until firm. Unmold. Garnish with mayonnaise. Serves 6.

Employing Hand Labor

Employers In Argentina Try To Give Work To Idle

Following the lead of a cigarette manufacturer who has just removed from his factory all cigarette-making machines in order to give work to several hundred unemployed men and women, working-class leaders in Buenos Aires, Argentina, are trying to enlarge the idea. They are starting campaigns to induce plant owners in many other industries to substitute human for machine labor and thus give employment to thousands still idle.

Approved By King

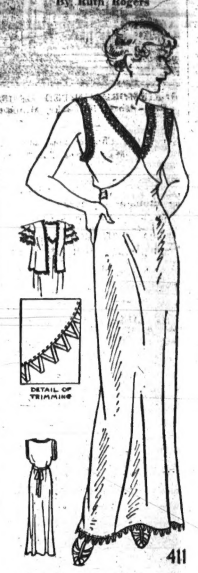

The King has given his approval to the regional alliances involving units in Canada, the United Kingdom and New Zealand. The Winnipeg Grenadiers have established an alliance with the Scots Guards, while the Lincoln and Welland Regiments has allied itself with the Hawkes Bay Regiment of the New Zealand forces.

Magistrate—So you and your wife have been fighting again.
Prisoner—No, sir, she licked me this time.

NIGHT GOWN AND BED JACKET
ENSEMBLE—A NEW AND DIFFERENT FASHION PARIS
SENT US

It's loveliness itself. The nightgown will wrap you in sleek-like slimmers. The bed jacket through slashed opening at either side of the front, holding the gown closely to the figure. It lies in easy effect at the back. It has the becoming "V" neckline and deep armholes.

The simple straight little jacket favours triple flounced sleeves. The original was pale blue crepe satin. A craft touch in strips of self-fabric stamped its French origin. It's easy to do. The pattern envelope explains everything about this interesting craft trim in detail.

Choose now! Make this exquisitely beautiful ensemble for just the cost of the fabric.
Style No. 411 is designed in sizes 16, 18, 20 years, 36, 38, 40 and 42 inches bust.
Size 36 requires 4 1/2 yards 39-inch and 10 1/2 yards trimming.
Price of pattern 20 cents in stamps or coin (coin is preferred). Wrap coin carefully.

A Hardy Plant

Alfred Townsend, of St. Catharines, has produced a plant he calls the Eskimo plant and which he states bloomed out-of-doors immediately after sub-zero weather. The flower is white.

Egg-Grading Regulations

New Schedule Came Into Effect The First Of January

The riddle of why does a chicken cross the road is not a whit more haunting to a great many people than the new federal egg-grading regulations which came into force on January 1. To those who take time out to study the act, however, it presents few difficulties. The terms "fresh special," "fresh extra" and "fresh first" are to be discontinued. In future fresh eggs will be designated as "A," "large," "A," "medium," and "A," "pullets." Eggs of more than 22 ounces to the dozen will be in the large category; the "medium" grade will weigh between 18 and 22 ounces, and pullets' eggs will weigh up to 18 ounces. The regulations put storage eggs in "B" grade, but patrons of Central market need not be concerned about that section of the act, because a city-by-law prohibits the vending of storage eggs on the public square.

Alfred Smees, manager of Central market, drew attention to the fact that inferior quality was a main factor in the new grading schedule. There will be none to dispute that, except for throwing, a fresh little egg is much to be preferred to a big bad one. Superficial inspection of the exterior isn't helpful to egg shoppers. The customer must rely on the honesty of the purveyor, and the government, in its wisdom, gives egg dealers an special incentive to be honest by providing stiff penalties for those who are not. For the purpose of the act, a fresh egg is one in which the air cell space does not exceed one-quarter of an inch. There is a continuous process of contraction within the shell and when candling this amount of air cell space, it is seen in prima facie evidence that the product is making ready to grow a beard.

Egg dealers with an established clientele will not be annoyed about the new regulations. They cannot afford to sell eggs of inferior grade, and, for the protection of the business, would be careful to keep quality up even in the absence of official regulations.—Hamilton, Ont., Spectator.

Store Has "Gratis Day"

Customers In Medan, Dutch East Indies, Reap Benefit

Customers of two department stores in Medan, Dutch East Indies, may get a cash refund for goods purchased on a certain day, which is chosen by lot. Under the new plan purchases made during the month are recorded on a cash slip, a copy of which is given to the customer. On the first day of the following month clips representing each day are deposited in a container, from which one is drawn represents the "gratis day," and those who made purchases on that day are given their money back.

Jasper Park Lodge

According to an announcement made by Walter Pratt, general manager of Canadian National Hotels, the opening and closing dates for Jasper Park Lodge this year will be June 15 to September 23. Of further interest to fishermen is the fact that Nipigon Lodge will be open from June 15 to September 15.

Once upon a time there was a wise husband who bought his wife such fine china that she wouldn't trust him to wash and dry the dishes.

Thirteen of the 615 members of the British parliament refuse to draw their salaries.

Marvels of the Human Eye
By F. M. CROWE, Optometrist-Optician, Calgary

NO. 3—MYOPIA, OR "SHORT-SIGHTEDNESS"

As explained in Article No. 1, to obtain normal vision, the depth of the eyeball and the curvature of the lens and cornea should be in exact relation to each other.

Should the depth be too great or the lens or cornea too convex then the focal point of the image will be in the vitreous humor in front of the retina. The rays from the image looked at, after focusing will cross and proceed to the retina forming an enlarged but blurred image. This is the Myopic condition, and unlike Hyperopia, nature does not provide any means of overcoming it.

The average Myope (Myopic person) has no trouble at the reading distance, his trouble being poor distant vision. It is significant that Myopic persons seldom indulge in outdoor sports or recreation but turn to books and study. The German as a nation are typical of this, especially among the "intellectuals" which may possibly account for their advancement in science. It is estimated that of all the refractive errors of the eye only six or seven per cent. of people are Myopic.

Myopia may be congenital or acquired. It may be acquired by excessive close work especially during childhood, before the eyeball has assumed its normal shape. True Myopia will never improve and all that can be hoped for is that by wearing

SUNDAY SCHOOL LESSON

JANUARY 21

JESUS BEGINS HIS MINISTRY

Golden Text: "Repent ye: for the Kingdom of Heaven is at hand." Matthew 4:17.

Lesson: Matthew 4:12-25.

Devotional Reading: Isaiah 61:1-6.

Explanations and Comments

Capernaum Becomes The Headquarters Of Jesus, verses 12-16.—Now when Jesus heard that John was delivered up, He withdrew into Galilee. The Fourth Gospel narrates the early activities of Jesus in Judea, Chapters 1 to 3. From Judea He went first to Nazareth, but left that city (Luke 4:16-30 gives the reason) for Capernaum which lay on the north of Galilee in the midst of a densely populated region. Matthew wrote his Gospel especially for the Jews, and he reminds them that Capernaum was in the borders of Zebulun and Naphtali, the tribes who settled there in Old Testament times, and tells them that this was foretold in the sayings of Isaiah the prophet, verses 15 and 16. The people that sat in darkness in Galilee did, in truth, see a great light, for in Jesus was life, and the life was the light of men.

"When the gospel was first preached to the Samaritans at Samaria, by Paulinus (as we read in Bede's History), King Edwin sat in Council with his chiefs and wise men to consult whether they should give up their idols and believe in the Lord Jesus Christ. One of the Councilors rose and spoke thus: 'In winter O King, when thou art sitting in thy hall at supper, with a great fire burning, and thy nobles and commanders around thee, sometimes a little bird flies through the hall, in at one window and out at another. The moment it is gone it is sweet to him, for he feels neither cold nor tempt; but it is short, and from the dark winter he vanishes into the dark winter again. So O King, seem to me the short life of man; for we know not whence we came nor whither we go. If, therefore, this new doctrine can teach us anything certain, let us embrace it.' And so Edwin and his people came out of the dark winter of heathenism into the glorious light of the gospel, and became Christians, and destroyed their idols; just as in our own day have been done in Madagascar, and in many of the South Sea Islands. So our Saviour's own preaching is described: 'The people who sat in darkness saw a great light; and to them that sat in the region and shadow of death, to them did light spring up.'—E. R. Conder.

Woman Detective Visits Different Place Every Day
A mystery woman is known to the London park keepers as "The Watcher." Day after day she strolls into one or other of the 113 London County Council parks or open spaces to sit knitting or reading, but always with an eye open for wrongdoing. She is the London detective employed by the London County Council who watches over the safety of women and children.

The mystery of her identity and the secrecy of her movements help her greatly in her work. This mysterious woman has a rota of parks to visit. Every day she is in a different place. If she sees any mischief she reports it to the park keeper; a watch is kept, evidence obtained, and the offender arrested.

Her rota is never broken when she has to investigate complaints made from any particular park. She also inspects the gymnasia in the parks, the swings, and the children's playgrounds. Many mothers have cause to be thankful for her vigilance.

Woman Suffragette Dies

Leaves Valuable Estate To Beneficiaries Of Her Own Sex

The late Elizabeth Knight, one of the pioneers of the women's suffrage movement in Britain, and one of the first women doctors, in England, left an estate of \$1,250,000 it was disclosed when the will was probated, and not a single man was among the beneficiaries.

Dr. Knight served prison terms twice for her suffrage activities, first in 1908 following a call she paid on the prime minister's residence at 10 Downing street, and again in 1914.

Even Rhinos Are Cheaper

Like potatoes and tomatoes, rhinoceroses are cheaper. Frank Buck, who brings 'em back alive, has offered to sell the St. Louis zoo a young "rhino" for \$9,000. About 10 years ago the price was \$20,000 for similar animals.

The only thing civilization hasn't learned to produce in sufficient quantity is stale seats.

Extend Trade Treaty

Second Extension Is Arranged Between Canada And Germany

A second extension as from January has been arranged between Canada and Germany for the trade treaty initially contracted a year ago, according to an announcement made at Ottawa recently. On January 1 last year Germany agreed to exempt Canadian goods from the "Obernicht" or surtax, rates that were applicable to the products of countries which had not been negotiated commercial treaties with the reich. This agreement terminated on March 31, 1933.

As from April 1, it was renewed with Canada, according to Germany the benefits of the intermediate tariff, in return for which that country granted to Canada the "conventional" or treaty tariff on such commodities as normally were embraced with the "conventional tariff" schedules. On other commodities Canada was granted the general tariff, with no application to any Canadian goods. The "Obernicht" rates. This agreement ended until Dec. 31, 1933.

Watches Over London Parks

Woman Detective Visits Different Place Every Day

A mystery woman is known to the London park keepers as "The Watcher." Day after day she strolls into one or other of the 113 London County Council parks or open spaces to sit knitting or reading, but always with an eye open for wrongdoing. She is the London detective employed by the London County Council who watches over the safety of women and children.

The mystery of her identity and the secrecy of her movements help her greatly in her work. This mysterious woman has a rota of parks to visit. Every day she is in a different place. If she sees any mischief she reports it to the park keeper; a watch is kept, evidence obtained, and the offender arrested.

Her rota is never broken when she has to investigate complaints made from any particular park. She also inspects the gymnasia in the parks, the swings, and the children's playgrounds. Many mothers have cause to be thankful for her vigilance.

Advances In Drying Clays

Continuation of investigations on the treatment of certain mid-western brick clays to overcome drying defects by the Department of Mines at Ottawa has revealed that chemical treatment or preheating treatment must be resorted to in order that those clays may be rendered free from these defects.

Had Narrow Escape
Cries for help, uttered as he was being drawn slowly toward the roaring fire in the Toronto Terminal Heating Company furnace, brought rescuers who saved William French, 38, from being burned to death. French, shovelling coal, was sucked into the self-feeding chute which fed directly into the roaring furnace.

"It is no disgrace to fall if you have done your best," says a philosopher. Still, it's pretty tough to have to admit that the best you could do was fail.

One of the worst stings of defeat is the sympathy that goes with it.

The local town council has decided to purchase a tractor and snow plow.

The first Y.W.C.A. in Canada was established at St. John, N.B., sixty-three years ago.

Coleman Canadians defeated the Bellevue Maple Leafs at Coleman on Monday night 4-3.

Miss Bessie Passmore was down from Cranbrook last week end on a visit to her parents.

"Bill" Bell, genial proprietor of the Grand Union hotel at Coleman, was under the weather with a cold last week end.

Inspector K. Duncan, of the R.C.M.P., was up from Lethbridge Tuesday on a visit of inspection to the local barracks.

Professor Gaughn, who has been teaching in the district near Athabasca, is visiting old friends at Bellevue and Burmis.

A return engagement of the Scottish Musical Comedy Company is promised for Coleman on Monday, February the 19th, in "The Bonnie Briar Bush."

The remains of the late Alven (Tibby) Levasseur were laid to rest at Pincher Creek on Friday forenoon last, service being held by Rev. Fathers O'Dea and Chambeau.

W. J. Kraft, of Safeway Stores, Limited, Calgary, is visiting the local branch today, accompanied by F. J. Braun, district supervisor, of Lethbridge.

An exchange remarks: Some people seem to think they might hurt themselves by smiling. If some of those sad faced citizens were to smile a while, they might get along better.

A local merchant intends to sue the town for damages, for taking away a chunk of snow from in front of his premises, on which was marked up a list of groceries charged to a westender.

Alfred Moores, of Creston, formerly of Coleman, has been awarded the London College, England, bronze medal at the mid-summer exams in violin playing. He was a pupil of W. J. Harris, A.L.C.M., Coleman.

He had just been worsted in a business deal, and he was very angry. "I look upon you, sir, as a rascal," he said. "You are privileged," said his rival, "to look upon me in any character you care to assume."

During the 1000 years that have elapsed since the founding of the Peking Gazette, a newspaper which claims the distinction of being the second oldest periodical in the world, no fewer than 1797 of its editors have been executed.

The kettle calling the pot "black bottom." Recently we mentioned in these columns that a certain individual had made use of language in an hotel rotunda that was not fit for publication. A few days ago that same individual remonstrated another for making use of language objectionable to him.

The officers of Crowfoot Rebekah Lodge were installed on the evening of January the 4th by Sister E. Hope, district deputy president, of Coleman, assisted by Sisters Ford, Evans, Neilson, Higginbotham and Shields, as follows: Sister Houghton, N.G. Sister McFegan, V.G., Sister Simister, recording secretary, Sister Feron, financial secretary, and Sister Patterson, treasurer. At the conclusion of the installation ceremony, Sister Hope presented the retiring noble grand, Sister Hills, with a past grand's jewel, as a token of appreciation of her faithfulness during her term of office.

Mrs. Conner is in town from Gladstone valley.

The annual meeting of the ratepayers of Bellevue school district is to be held on Tuesday next.

George Maletta, who has been a patient in the Creston hospital, returned to town on Tuesday.

Mrs. J. J. Tighe, the fifth victim of the High River bus tragedy, died at Calgary on Saturday last.

Grand Master McPherson, of the I.O.O.F., will attend a district meeting of Pass lodges at Bellevue on January the 29th.

George McIntyre, popular leader of the Kimberley Orphan Choir, is a patient in the McDougall hospital.—Kimberley Courier

Lloyd George forecasts a long period of prosperity, and in a copyrighted article in the Canadian Press outlines reasons therefor.

A newly married couple got stuck near the United church on Monday evening. The car driver just couldn't avoid it and it took two men and a team to pull him out.

Born, at Frank, on Wednesday, January 10th, to Mr. and Mrs. Norman Evans (nee Mary Krywolt), of Bellevue, a daughter. Grandad already feels much better.

The Blairmore Bearcats, at the request of rooters: "We want Tony!" tied with the Bellevue team last night 2-2. Tony went out and took the necessary equalizer in the last half minute.

When Tom J. entered a local store and offered five cents for the privilege of placing a meeting notice in the window, the proprietor replied: "If you want advertising for a nickel, go to the Herald!"

Dr. T. R. Johnson, of Great Village, Nova Scotia, in presenting his annual report to the Colchester County council as medical health officer, advocated birth control among undesirable by sterilization.

The gross revenues of the all-inclusive Canadian National Railways system for the week ending January the 7th, 1934, were \$2,359,693, an increase of \$359,679 over the corresponding week last year.

Accounts passed at the last meeting of the town council included the following for relief supplies: F. M. Thompson Co. \$1,086.83; John Kubik \$1,108.70; Martin Kubik \$288.55; Safeway Stores \$266; Mark Sartoris \$101.90.

The announcement is made from London that side whiskers, or as our grandfathers used to call them, muton chop whiskers, are becoming a vogue over there again. They arrived in Blairmore, just two years too soon, then.

Rev. Father Tessier, O.M.I., has been called from Pincher Creek to take up a professorship at St. John's College, Edmonton, and left Pincher Creek on Sunday. Prior to his leaving, he was waited upon by members of his congregation and presented with a purse. The Pincher Creek curles also honored him with the presentation of a fine leather travelling bag and address.

A number of extra men are being taken on at the mines at Bellevue and Blairmore this week, which it is expected will be of considerable help to the unemployment relief problem. About 24 were added to the regular list here on Tuesday, most of whom worked their first shift for over twelve months. It is thought that a considerable number will yet be taken on, and that the mines of the district look forward to a busy spell for a while.
